

Bachelor Seminar on “Topics in International Trade”

Dear students,

We would like to inform you that the Chair of International Economics (Prof. Dr. Udo Kreickemeier) is offering a Bachelor seminar on “Topics in International Trade” in the summer term 2024.

Please find the list of topics as download on the Chair’s homepage under “Teaching” and send your **application** from early March onwards via the online form for the respective seminar on the Chair’s homepage (<https://www.uni-goettingen.de/en/teaching/590624.html>) until **31.03.2024 23:59**. You will be notified whether you got a slot in the seminar and, if yes, what topic has been assigned to you until **05.04.2024**. Afterwards, you have one week until **14.04.2024 23:59** to register in FlexNow. Please register in FlexNow only if you have been assigned a seminar slot. Slots in the Bachelor seminar are assigned rule-based. An introductory meeting will take place in the week after the FlexNow registration deadline. Further information regarding the specific date will be provided in time.

Presentations will take place in-person on a single day (**11.06.2024**) from 8:30-17:30. The presentations are of 15-20min length plus around 10min of group discussion afterwards. Presentations should be given in English.

After the presentation, you are expected to use the feedback to fine-tune your paper. **Final papers** must be submitted until **18.06.2024 23:59**. An overall grade will be given that takes into account both the presentation and the final paper. Papers may be written in English or German. Please find guidelines on how to write your seminar paper on the Chair’s homepage and stick to the formal requirements (e.g. a length of 15 pages) stated there.

Kind regards,

Chair of International Economics Team
